ChatGPT & Zapier: Agentic
AI for Everyone

May 9, 2025

Bongani Mbambiso

has successfully completed the online, non-credit Specialization

ChatGPT: Excel at Personal Automation with GPTs, AI & Zapier

Upon completion of this course, learners will have gained a comprehensive set of skills in prompt engineering and personal automation using ChatGPT and Zapier. They will be proficient in creating and customizing GPTs to automate a variety of tasks, enhancing both productivity and workflow efficiency in personal and professional settings. Learners will acquire the ability to design and implement automated solutions for tasks such as travel expense management, social media analysis, content creation, and customer interactions.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
