has successfully completed the online, non-credit Professional Certificate

Microsoft Project Management

Now that you have completed the Microsoft Project Management Professional Certificate, you stand out with a unique set of skills and knowledge in the dynamic field of project management. This certificate demonstrates your job readiness and can be shared with your professional network. Throughout this program, you've engaged with instructional videos, assessments, and practical exercises, gaining a deep understanding of key aspects of project management, including:

- Motivating people and teams through all phases of a successful project.
- Using predictive, agile and hybrid approaches to determine which way of working is best for each project.
- Highlighting the success of a project and its impact on overall strategic organizational goals.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
